

MARKSMAN SUPERO AVON

The lightweight 11ft two-piece rod is designed to provide the full flavour of a traditional Avon with its forgiving through action, but this has been achieved by using modern materials, including a superior blend of high modulus carbons. The result is a great all-round rod with super fast recovery and plenty of casting power, combined with our amazing Total Anti-Lock Action. The 11ft 6in Avon is the ideal choice for a "go anywhere, do anything" approach, especially when targeting bigger fish.

- Super high modulus carbon
- Durable Fuji line guides
- Hardy Total Anti-Lock Action
- Custom reel seat & top quality fittings
- All models have a Through action

Product Code	Length (ft/m)	Reel Line Rating (lb)	Casting Weight (g)	Hook Length Rating (lb)	Sections	Weight (g/oz)	T-Code	RRP (£)
HRMS260	11' / 3.35	4 - 12	Up to 90	3-10	2	196 / 6.8	D13950	279.00
HRMS270	11'6" / 3.51	5 - 12	Up to 100	4-10	2	212 / 7.4	D14450	289.00

MARKSMAN SUPERO AVON SMUGGLER

The lightweight six-piece Avon rod breaks down to just 2ft (61cm) for the 11ft version and 2ft 1in (64cm) for the 11ft 6in – perfect when storage space is tight. It's the ideal travel format, tailored to fit standard size suitcases, or to hide out of sight in the boot of a car. It's a great all-rounder with a super fast nature, stacks of casting power and our amazing Total Anti-Lock Action. Unlike most multi section travel designs this model feels and behaves just like a conventional rod.

- Super high modulus carbon
- Durable Fuji line guides
- Hardy Total Anti-Lock Action
- 6 sections for compact storage
- Custom reel seat & top quality fittings
- All models have a Through action

NEW 2013

MARKSMAN SUPERO SPECIMEN

A super high modulus specimen rod that breaks down into 3 sections for easier storage, such as hiding in the boot of a car, but without compromising on performance in any way. This sublime light specimen rod can take over from Avon rods when rivers are carrying extra water, also providing enough power to handle big carp on smaller stillwater venues – where modern carp rods often prove to be over gunned. In the latter instance this lightweight rod, with its cork handle, custom reel seat and subtle progressive action is an absolute joy to use.

- Super high modulus carbon
- Durable Fuji Black Alconite guides
- Hardy Total Anti-Lock Action
- Reel line rating: 6-14 lb
- Hook length rating: 5-12 lb
- Casting weights up to 110g
- Custom reel seat & top quality fittings
- Progressive Action
- 3 Section design for easy storage

Product Code	Length (ft/m)	Reel Line Rating (lb)	Casting Weight (g)	Hook Length Rating (lb)	Hook Weight (g/oz)	Test Curve (lb)	T-Code	RRP (£)

NEW 2013

MARKSMAN SUPERO BARBEL

A top level barbel rod designed for specialist anglers who require a high degree of finesse in their big fish approach, in order to fool ultra wary specimen sized fish. The Avon top offers a useful 1.5lb test curve for demanding float, feeder and ledger tactics, while with the quivertip carrier section installed this rod transforms into a brilliant feeder tool with its wide ranging 1.5oz, 2.5oz and 3.5oz hollow carbon quivertips. Apart from catching specimen sized river fish, this great package is versatile enough for tracking down all big stillwater species – on float, ledger or various types of feeder tackle.

- Sections: Handle, Avon top, quivertip carrier section, 3x quivertips
- 1.5oz, 2.5oz & 3.5oz hollow carbon quivertips
- Super high modulus carbon
- Durable Fuji Black Alconite guides
- Hardy Total Anti-Lock Action
- Progressive Action
