

# HARDY COARSE FISHING

FLY / SPINNING / **COARSE - RODS** / CLOTHING / ADDITIONS

NEW FOR 2012

## MARKSMAN SUPERO FLOAT

**11ft6** features a two-piece format so it can be tackled up and stored ready for action. It provides delightfully fast casting and striking power, combined with a forgiving nature that refuses to lock up, even when put under extreme pressure. The ultra lightweight, high modulus blank will comfortably handle fine lines and small hooks, but is man enough when stronger tackle is needed for bigger fish – or for amassing bigger catches.

**13ft** takes performance values to new levels, offering super crisp casting and striking properties. It's a great all-rounder, especially when taking a fine approach, gaining a big advantage when big fish are hooked on light tackle. The rod always stays in control of the situation with its subtle power and forgiving nature.

**14ft** offers astonishing lightness and balance considering its longer reach, incorporating faster casting and striking power. This rod is perfect for casting heavily loaded wagglers and sliders to the horizon, or controlling big river floats. It also has a surprisingly forgiving nature, which allows lighter tackle to be used - when required.

**15ft** provides amazing lightness and balance considering its longer reach. The high modulus carbon blank is further enhanced with super fast casting and striking power. This is the perfect rod for conquering demanding venues, while its forgiving nature also allows lighter tackle to be used when the going gets tough.

- Super high modulus carbon
- Durable/lightweight Fuji line guides
- Hardy Total Anti-Lock Action
- Custom reel seat & top quality fittings
- Worldwide Extended Warranty
- 11ft 6 and 13ft models have a Through action
- 14ft and 15ft models have a Progressive action

Product Code	Length (ft/m)	Reel/Main Line Rating (lb)	Casting Weight (g)	Hook Length Rating (lb)	Sections	Weight (g/oz)	T-Code	RRP (£)

## MARKSMAN SUPERO EXTREME FLOAT

NEW FOR 2012

Sister rod to the Marksman Supero 13ft Float, providing extra power for more demanding situations. This extreme version has even more casting and striking backbone, but this has been carefully tempered with our Total Anti-Lock Action. The result is an attacking all-round float rod, ideal for targeting bigger catches and bigger fish, while still retaining a surprisingly forgiving nature.

- This rod has a Progressive action
- Super high modulus carbon
- Lightweight/robust Fuji line guides
- Hardy Total Anti-Lock Action
- Custom reel seat & top quality components

Product Code	Length (ft/m)	Reel Line Rating (lb)	Casting Weight (g)	Hook Length Rating (lb)	Sections	Weight (g/oz)	T-Code	RRP (£)
HRMS220	13' / 3.96	2.5 - 7	Up to 14	1.5 - 6	3	192 / 6.7	D14450	289.00

## MARKSMAN SUPERO FEEDER

NEW FOR 2012

New Supero Feeder Rods offer much higher performance levels while retaining beautiful Total Anti-Lock Actions.

**11ft** lightweight and well-balanced. It offers just the right amount of casting and striking power for short to mid range feeder and leger requirements. Performance is further enhanced by revolutionary 3/4oz, 1oz and 1.5oz hollow carbon quivertips, which blend in very smoothly with the high modulus blank, magnifying every minute indication.

**12ft** sets new standards as an all-rounder for feeder and bomb fishing, balanced with surprising casting and striking power. Another prime feature is the super sensitive hollow carbon quivertips, which bring a new dimension to bite detection. They blend so smoothly with the high modulus blank, resulting in less bounce and friction on the cast - magnifying every indication.

**13ft** offers increased casting power and faster line pick up. Super sensitive hollow carbon quivertips bring a new dimension to bite detection. The quivertips blend extremely smoothly with the high modulus blank, creating less bounce and friction on the cast, gaining vital extra distance.

- Super high modulus carbon
- Fuji braid safe line guides
- Hardy Total Anti-Lock Action
- Quivertips included, see below
- Custom reel seat & top quality fittings
- All models have a Progressive action

Product Code	Length (ft/m)	Reel Line Rating (lb)	Casting Weight (g)	Hook Length Rating (lb)	Sections	Weight (g/oz)	T-Code	RRP (£)
<i>11ft Feeder with 3/4oz, 1oz &amp; 1.5oz hollow carbon Quivertips:</i>
